3. PROFILE OF SKILLS AND COMPETENCES

Master craftsmen/mistresses in the well building trade have the professional, methodological, social and personal skills to manage and organise a well building company. In consideration of the customer requirements you can:

- develop a range of services and offer services, in particular:
  - consider working and application techniques as well as machine and equipment technology, geological and hydrological conditions, occupational legal regulations and technical standards as well as established rules of technology, develop and implement operational logistics concepts,
  - measure drilling and their development, in particular to wells, geothermal probes and groundwater measuring points as well as water extraction systems, determine water and energy requirements,
- provide services, in particular:
  - install support piping, ring space filling according to geological storage conditions and seal against ingress of unsuitable water and pollutants,
  - plan, prepare and execute well development, including computer-assisted,
  - erect well termination structures, construct, backfill and compact excavations, trenches and shoring
  - maintain well and termination structures, identify and remediate performance degradation and damage, prepare and implement rehabilitation and remediation concepts, and close drillings, dismantle drillings, removed drillings and termination structures, and keep disposal records,
  - perform penetration drilling and jacking for pipe installation, design and construct foundations and excavation shoring using special foundation construction equipment, and design and construct water conservation and geothermal energy recovery systems,
- checking, documenting, handing over and invoicing services, in particular:
  - carry out and evaluate fault and malfunction searches, eliminate faults and malfunctions and create inspection reports.

In doing so, you make commercial, human resources and legally justified decisions, implement them and justify them. This includes in particular:

- plan, control and monitor work and business processes in a responsible position from an entrepreneurial perspective as well as ensure quality and sustainability,
- lead employees, enable further training and implement personnel development measures,
- qualify trainees in their craft in consideration of pedagogical and legal-organisational requirements.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

Master craftsmen/mistresses in the well building trade independently manage companies or take on management tasks in companies and business premises of the well building trade. In craft or industrial companies, they take on in addition to providing services one or more of the following activities:

- commercial and business management,
- technical management,
- organisation of vocational training and human resources development.
