3. PROFILE OF SKILLS AND COMPETENCES

Master craftsmen/mistresses in the dental technician trade have the professional, methodological, social and personal skills to manage and organise a dental technician company. In consideration of the customer requirements you can:

- develop a range of services and offer solutions, in particular:
  - take into account manufacturing techniques, maintenance alternatives, legal and technical standards and hygiene regulations,
  - determine data of the jaw relation determination, can also be determined by computer,
  - carry out intraoral and extraoral measurements on the patient,
  - display the individual anatomy of the patient and the jaw bones three-dimensionally and measure them in all spatial directions,
  - create work plans, sketches and drawings and photo-optical representations of teeth, faces and heads, plan material requirements.
- provide services, in particular:
  - fabricate, modify, repair and extend dentures, defect dentures, epitheses, therapeutic appliances, splints and mouthguards,
  - take into account types and properties of materials to be processed, primary and forming processes as well as processes for surface treatment and material property modification in planning, construction and execution,
  - use manual, mechanically controlled and program-controlled machining and processing methods,,
  - apply bonding and joining techniques in the fabrication of dental restorations,
  - produce dental restorations,
  - fabricate and incorporate individual connecting elements for prosthetic work.
- Checking, documenting, handing over and invoicing services, in particular:
  - carry out quality controls, eliminate errors, defects and damage,
  - perform order-related post-calculation,
  - solve unpredictable complex problems in the production of dental restorations from a quality point of view.

In doing so, you make commercial, human resources and legally justified decisions, implement them and justify them. This includes in particular:

- plan, control and monitor work and business processes in a responsible position from an entrepreneurial perspective as well as ensure quality and sustainability,
- lead employees, enable further training and implement personnel development measures,
- qualify trainees in their craft in consideration of pedagogical and legal-organisational requirements,
- monitor compliance with legal requirements,
- inclusion of quality management systems in the manufacture of medical devices.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

Master craftsmen/mistresses in the dental technician trade independently manage companies or take on management tasks in companies, business premises and professional associations of the dental technician trade. In craft or industrial companies, they take on in addition to providing services one or more of the following activities:

- commercial and business management,
- technical management,
- organisation of vocational training and human resources development,
- further development of the occupational profile
- create and accompany opportunities for staff training

**(\*) Explanatory notes**
