3. PROFILE OF SKILLS AND COMPETENCES

Master craftsmen/mistresses in Carpenter have the professional, methodological, social and personal skills to manage and organise a Carpenter trade. In consideration of the customer requirements you can:

- develop a range of services and offer services, in particular:
 - take into account production and assembly techniques, surface treatment processes, types and properties of materials to be processed and legal and technical standards,
 - advise customers, conduct order negotiations, calculate services and prepare quotations,
 - create and present drafts, sketches, production drawings and plans,
 - plan and monitor the use of systems, machines, tools and equipment,
 - develop and implement logistics concepts and concepts for production facilities, coordinate assembly processes,
 - recognise static systems and carry out plausibility checks, evaluate construction documents, prepare and evaluate static calculations,
- provide service, in particular
 - determine the use of ready-to-assemble parts, products and purchased parts and take into account styles and historical and contemporary design vocabulary in design, production, restoration and reconstruction,
 - design, construct, manufacture, install, assemble and maintain furniture, interior fittings and furnishings, in particular office and shop fittings, kitchens, wall and ceiling panelling, floors and measuring structures,
 - design, construct, manufacture, install, assemble and maintain façade-enclosing (building) elements, in particular windows, doors, conservatories and staircases as well as vehicle installations and conversions,
 - plan, carry out and document restoration work,
 - plan, install, assemble and maintain locking and protection systems to order,
 - install products and objects, including electrical and water connections,
- Checking, documenting, handing over and invoicing services, in particular
 - Carry out quality and functional checks, analyse and document the results,
 - accept and document services and carry out post-calculation.

In doing so, you make commercial, human resources and legally justified decisions, implement them and justify them. This includes in particular:

- plan, control and monitor work and business processes in a responsible position from an entrepreneurial perspective as well as ensure quality and sustainability,
- lead employees, enable further training and implement personnel development measures,
- qualify trainees in their craft in consideration of pedagogical and legal-organisational requirements.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

Master craftsmen/mistresses in the Carpenter independently manage companies or take on management tasks in companies and business premises of the tank and apparatus builder trade In craft or industrial companies, they take on in addition to providing services one or more of the following activities:

- commercial and business management,
- technical management,
- organisation of vocational training and human resources development.
